

Ensign SM 1 & SM 2 Professional mains powered upright vacuum cleaner

Ensign SM brings you:

- Power & Efficiency
- Improved Air Quality
- Ease of Servicing
- Versatility & Convenience

filter replacement and easy change of filter bags ensure maximum efficiency with minimum downtime.

Versatility and Convenience

Ensign SM is fitted with an integrated telescopic hose and tube with an 8 foot reach and comes complete with practical on-board tools. It has excellent edge cleaning performance and is available in two cleaning sizes, 12" (31 cm) and 15" (37 cm).

Power and Efficiency

The powerful vacuum motor with protection from the bypass airflow valve provides highly efficient performance. The flat-to-the-floor profile allows cleaning under furniture whilst the long mains cable provides a large cleaning radius.

Improved Air Quality

Ensign SM utilises high performance S - Class filtration including a three layer filter bag and double size electrostatic exhaust filter. This results in significantly improved air quality during and after vacuum operation. Filtration can be further enhanced with the use of the optional HEPA filtration kit.

Ease of Servicing

Through modular design, the majority of servicing can be completed without the use of tools. Convenient brush and
